PROFILE

Computer Science undergraduate with a strong foundation in software development, data analytics, data structures & algorithms, and problem-solving. Experienced in building academic and personal projects using modern technologies. Quick learner with strong analytical and communication skills, eager to contribute to innovative projects and grow as a technology professional.

TECHNICAL SKILLS

Programming Languages
Core Java

Frameworks
Spring Boot (Basic)

Core CS Concept
Object-Oriented Programming, DBMS, ETL Concepts, Database Management Systems, Data Structure and Algorithm (Basic)

Database Technologies
MySQL, DBMS

Data Analytics & Visualization
Microsoft Excel, Power BI, Data Analytics, Data Visualization, Tableau

CRM / Cloud Platforms
Salesforce Admin, Cloud Computing Fundamentals

IDE / Development Tools
Visual Studio (VS Code), MySQL Workbench, IntelliJ IDEA

Tools
Tableau, Microsoft Power BI, Git, GitHub

Soft Skills
Teamwork, Communication Skills, Adaptable, Quick Learner, Agile & Flexible

EDUCATION

Bachelor of Technology in Computer Science
Kalinga Institute of Industrial Technology
08/2022 – 04/2026 | Bhubaneswar, India
CGPA: 8.41

Senior Secondary Education
Dr GL Dutta DAV Public School
2020 – 2022 | Patna, India

PROJECTS

Movie Recommendation System
Java, KNN, Core Java Libraries, MySQL
01/2025 – 02/2025
- Developed a KNN-based recommendation system using a dataset of over 5,000 movies, improving recommendation relevance through collaborative filtering.
- Performed data cleaning, feature extraction, and exploratory data analysis on movie datasets.
- Integrated MySQL database for efficient user preference storage and recommendation retrieval.
- Improved personalized recommendation accuracy through similarity-based filtering techniques.

Linear Regression Weather Prediction Model
Python, Linear Regression, MySQL
10/2024 – 11/2024
- Developed a machine learning-based weather prediction system using Linear Regression to analyze historical weather datasets.
- Performed data preprocessing, feature engineering, and model training on temperature, humidity, pressure, and wind-related parameters.
- Utilized MySQL for structured data storage and retrieval to support predictive analytics workflows.

CERTIFICATES

Java Basic Certification
HackerRank

SQL Intermediate Certification
HackerRank

Salesforce Developer Beginner Badge
TrailHead
